Piano Music for Children by—Helen Cramm

Miles Standish was their captain bold;
His army kept at bay
The wand'ring Indians who sought
To steal, and burn and slay.
The Standish army numbered twelve.
Our millions fight today.

HELEN CRAMM, one of the most successful composers of music for beginners, is a well known New England musician. Her musical ability, inherited from her father, was manifested at an early age. When a very small girl, Miss Cramm began the study of singing. It was not long, however, before she specialized in piano playing. In this branch, as well as in organ playing, she had the advantage of studying with several excellent teachers. Miss Cramm taught music privately and also at the Montpelier, Vermont, Seminary, and established a school of music in Haverhill, Mass., her home city.

The first compositions of Miss Cramm's to attract public notice were published in 1905. Since that time she has written several volumes of piano music. That these may be classed among the best sellers is evidenced by the fact that the demand for her music is not merely confined to this country, but reaches to such far off lands as China and Japan. But let Miss Cramm speak for herself:

"I have numerous interests beside that of music; belong to several clubs, musical and social, of which I have at different times been president, director, speaker, etc.; am not now actively engaged in teaching, but do more or less coaching and am director of music at St. John's Episcopal Church. My house is a social and musical center.

"My love of children makes my work a pleasure. I am a great lover of Nature, and during the growing season spend two or three hours a day cultivating flowers, vegetables and fruits about my place; and then, having in my pedigree many generations of old New England housewives, I can, and can, and can—enough for three families like my own, which includes only an old housekeeper which I inherited."

Here are other fascinating collections by Helen Cramm

Keyboard Kinks

(Four Hands)

.75 net

This is the best material imaginable with which to start young pupils on duet playing. The music is very easy, the melody alternates from primo to secondo, and the jolly little rhymes which accompany every piece give it added interest.

Finger Songs for Little Hands

.60 net

These melodious piano numbers may be sung also, since words are joined to each piece. They are most tuneful, and, like everything Miss Cramm writes, "lie well" under the fingers.

Easy Studies in Embellishments

.60 net

Dotted notes, short slurs, staccato, acciaccatura, appoggiatura, mordent, inverted mordent, triplet, turn and trill are illustrated in this collection of ten easy pieces, which afford pupils in the early stages excellent practice in playing ornamented passages.

The Boston Music Company — Boston, Mass.

The Best Method for Beginners

NORRIS' FUNDAMENTAL PIANO METHOD

A New and Thorough Course for Beginners on the Pianoforte by

ALBERT LOCKE NORRIS

net 1.00

THIS method has been written primarily to make easier the task of the young pupil, so that he may be assisted at home in, at least, the mental preparation of his first lessons. At the same time, it actually simplifies the work of the teacher, especially with beginners, as each of four lessons is clearly outlined with special reference to "mental" preparation.

The first part of this method consists entirely of elementary work: muscular relaxation, technical and mental application. The first, and most important steps are so provided for that their mastery is made easily possible. Care has been taken in the selection of suitable study material and pieces, so as to incite the pupil's interest and to form his musical taste.

OPINIONS OF PROMINENT EDUCATORS

FANNIE BLOOMFIELD ZEISLER: I am glad to say that I think the Norris Fundamental Piano Method contains many good things, and, if used by a thoroughly competent teacher, will surely be helpful to a serious student.

GEORGE COLEMAN GOW, Vassar College: The Norris Fundamental Piano Method covers the ground admirably. Everything is presented extremely well and there is not a word too much. This opinion is also voiced by the piano teachers in my department. What we all found especially satisfactory is the author's insistence upon establishing at the outset the right finger and arm control. We regard it as a serious mistake to delay relaxation and concentration exercises until bad habits have been formed. Mr. Norris has very satisfactorily solved the problem of combining such work with musical interest.

CLARENCE G. HAMILTON, Wellesley College: I find the Norris Fundamental Piano Method a very useful and sensible course of instruction. I am especially impressed with the attention paid to accurate phrasing and work with the pedal, both of which factors are, as they should be, emphasized from the beginning.

CONSTANTIN VON STERNBERG, Philadelphia: The Fundamental Piano Method by Albert Locke Norris deserves great praise. It is thoroughly modern in spirit and method; the little exercises and studies as well as the pieces are carefully prepared, and, outside of the technical, it takes due cognizance of the mental side of the child's study of music.

A. T. SMITH, Evansville (Ind.) Conservatory of Music: Mr. Norris has presented a Fundamental Method, or instruction book, to meet the present day requirements. I take great pleasure in recommending the work unreservedly. It is concise, definite and practical, and strictly in accordance with the principles used in playing by so many of the world's best players.

NORRIS' GRADED COURSE OF PIANO STUDIES

Based on, and to be used in conjunction with

Norris' Fundamental Piano Method

In three grades, price, each, net .75

THE movement to standardize piano teaching is sweeping the country. Mr. Norris contends that standardization should divide the pupil's work into grades and establish definitely the ground each one is to cover. With this end in view, he has composed and compiled the "Graded Course of Piano Studies," and it is the aim of this work to make the theoretical and technical education go hand in hand. Its chief purpose, while forming a technical foundation, is to combine with technical knowledge many really necessary things of a theoretical character that often remain enigmas to even those far advanced in piano technic.
